

Job Description – Molding Process Technician

Job Title: Molding Process Technician
Job Number: 120-42499-BIO
Company Name: Biomerics
Location: Salt Lake City, UT
Position Type: Full Time (M-F, 7AM – 3PM)
Pay: Hourly

Company Description:

Biomerics is a world class contract manufacturer and innovative polymer solutions provider for the medical device and biotech industries. As a vertically integrated company, we specialize in the design, development, and production of medical devices for diagnostic and interventional procedures. We are focused on next-generation solutions for the vascular access, electrophysiology, cardiac rhythm management, neurovascular, structural heart, and cardiovascular markets.

Please explore [our website](#) for more information about our offerings and capabilities.

Job Description:

The candidate will be responsible for starting up molding processes on the non-medical molding floor. The candidate will also be responsible for ensuring parts produced are of acceptable quality for production and ensuring all tools and equipment are kept clean and in good repair. The candidate will also be responsible for helping the mold set-up team with the daily in-process mold cleaning and lubrication.

Roles and Responsibilities Include:

- Setting up auxiliary equipment (e.g. mold heaters, hot tip controllers, valve gate controllers, etc.).
- Starting-up mold presses as specified by the molding production schedule.
- Working with quality to ensure parts are acceptable to start production.
- Working with operators to resolve molding process issues.
- Partnering with Process Engineers to implement process improvements.
- Performing PQ validations in support of new product launches.
- Red tagging all molds requiring repair and filling out proper documentation with an accurate description of what repairs are needed.
- General mold and machine maintenance (e.g. cleaning and lubricating of machines).
- Assisting mold set-up with in-process mold cleanings and lubrication

Requirements:

- High school diploma or equivalent (Required).
- A minimum of 3 years molding process experience (Required).
- Supervisor experience (Required).
- Must provide own tools (Required).
- The ability to read and comprehend procedures written in English (Required).
- The ability to complete paperwork accurately in English (Required).
- The ability to stand or sit for long periods of time (Required).
- The ability to do repetitive work, requiring good dexterity and hand/eye coordination (Required).
- The ability to lift up to 50 lbs. (Required).

- The ability to pass pre-employment drug and background screen (Required).

If you believe that your skills and talents match our needs, please email your resume to csr@biomerics.com. Be sure to include your name and the job number in the subject line.
