

## Job Description – Material Operator/Casting Technician

**Job Title:** Material Operator/Casting Technician

**Company Name:** Biomerics

**Location:** Salt Lake City, UT

**Position Type:** Full Time Employee

**Pay:** Hourly

**Shift:** M-F, 7am – 3pm, plus OT as needed

### Company Overview:

Biomerics is a world class contract manufacturer and innovative polymer solutions provider for the medical device and biotech industries. As a vertically integrated company, we specialize in the design, development, and production of medical devices for diagnostic and interventional procedures. We are focused on next-generation solutions for the vascular access, electrophysiology, cardiac rhythm management, neurovascular, structural heart, and cardiovascular markets.

Please explore [our website](#) for more information about our offerings and capabilities.

### Position Summary:

Responsible for premixing material batches, polymerizing polyurethane materials, visual inspection of materials produced, product sample submissions, classification of materials to specification, packaging of finished product, record keeping and document control of batch records, inventory control of raw materials, and ensuring all equipment is kept clean and in good repair.

### Job Specifics:

- Follow detailed polymerization instructions, processes, and procedures to correctly prepare polyurethane materials
- Comply with policies, guidelines, and regulatory requirements of the Biomerics Quality System
- Report problems with quality, processes, equipment, or materials to the Production Supervisor
- Perform disassembly and cleaning of equipment
- Complete line clearance, scrap records, training records, and other documentation as required
- Complete routine tasks with minimal supervision
- Maintain a clean and organized work area to facilitate manufacturing functions
- Work in a cleanroom environment with equipment running at elevated temperatures.
- Other duties as assigned by the Production Supervisor

### Requirements:

- High school diploma or equivalent
- Ability to read and comprehend procedures and drawings written in English
- Ability to read numerous measurement devices for inspection of parts (ie; calipers, micrometers, pin gauges, scales, etc...)
- Ability to complete paperwork accurately in English
- Ability to work safely around chemicals and equipment
- Ability to stand or sit for long periods of time

- Ability to do repetitive work, requiring strong dexterity and hand/eye coordination
- Ability to lift up to 50 lbs
- Ability to pass pre-employment drug and background screen
- Previous experience working with processes to produce plastic materials preferred
- May be required to wear a respirator when performing select job duties
